Quick Start Guide for SenseUp Application

Learn how to get started with SenseUp to improve your language skills.

Contents:

1. Introduction

SenseUp is an application allowing you to learn new languages, as well as improve your current linguistic skills. It provides short lessons for self-learning at your chosen pace. The lessons are focused on conversational skills. Additional grammar lessons are also available within the app.

2. Downloading SenseUp

You can use SenseUp on your computer, tablet, or smartphone.

To download SenseUp:

1. Open your device's application store.
2. In the search bar, type "SenseUp" and click Enter.
3. Click the download button in the application store.
4. Confirm download.

Result: SenseUp is downloaded on your device and ready for sign-up.

3. Signing up in SenseUp

Before you start using SenseUp, you need to sign up and create an account.

To sign up and create an account:

1. Open SenseUp.
2. Click the "Sign up" button in the center of the screen.
3. Type your username, email address, and secure password in respective fields.

*Secure password must contain at least 8 characters, one digit, one lower case letter, one upper case letter, and one special character. The application only allows to proceed if the password meets these requirements. Otherwise, the "Create an account" button is inactive and the "Incorrect password" message is displayed on the screen.

4. Repeat the password.
5. Click "Create an account".
6. Go to your email inbox and open the registration email sent by SenseUp.
7. Click the link in the email to finish creating your account.

4. Logging in to SenseUp

To log in to SenseUp:

1. Open SenseUp.
2. Click the "Log in" button in the center of the screen.
3. Fill in your username and password in respective fields.
4. Click the "Log in" button below the username and password fields.

5. Completing your profile

Complete your profile to set specific language information and choose your language courses.

To complete your profile:

1. Log in to SenseUp.
2. Open the menu at the top right corner of the screen.
3. Click "Profile settings".
4. Click "Add a language course".
5. From a drop-down menu, choose the language pair which you would like to learn.
6. Add as many language courses as you want to take.
7. Click on a profile picture to add or change it.
8. Add your telephone number if you want to enable SMS daily tips.

Additional information:

In "Profile settings", you can also delete your account or change your username, password, email address connected to your account.

6. Next steps

After creating your account and choosing language courses, you can start learning your chosen languages. For each language, you can first assess your current knowledge or start from the

beginner's level. For more information about using language courses, see the Language Courses section in the SenseUp Manual.
